### **EXAMINER'S AMENDMENT**

The application has been amended as follows: Withdrawn claims 8-17 are hereby cancelled. In response to the restriction requirement, Group I (claims 1-7) were elected without traverse, thus claims 8-17 were withdrawn by the Examiner in the Office action mailed 29 December 2005.

### ***Reasons for allowance***

The following is an examiner's statement of reasons for allowance. A new search was conducted with respect to the amendment submitted on 8 January 2007. Sohlström et al. (Growth Hormone & IGF Research 2001, 11; 392-398) teach the administration of IGF-II on day 20 of pregnancy in guinea pigs (i.e., during the first half of pregnancy), via subcutaneous injection. Applicants were awarded a U.S. filing date of 30 August 2002, in which priority is claimed to Australian application PR7331, filed 30 August 2001. A certified copy of the Australian application PR7331 was provided, and at p. 9, lines 17-19, for example, it states that IGF-II should be used in early pregnancy, thus clearly shows that it was appreciated by Applicants' that IGF-II must be administered early pregnancy on 30 August 2001. Sohlström et al. was published before 30 August 2002, but after 30 August 2001, thus this reference does not anticipate the claimed invention under 35 U.S.C. 102(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Claims 1-5 and 7 are allowed. In response to the restriction requirement mailed 5 October 2005, Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, thus the election was treated as an election without traverse (MPEP § 818.03(a)), and claims 8-17 are hereby cancelled.
